- Windows setup

EXPERIENCES

- 2022
- Web Development & Design
 - specialize in designing and developing websites that are both beautiful and user-friendly. My front-end skills include HTML, CSS, JavaScript, and various modern frameworks, ensuring that every project is optimized for both aesthetics and performance. Whether building websites from scratch or redesigning existing ones, I strive to make user experience a top priority.
- 2023
- Learning Django for Backend Development
- I am currently diving into Django to further enhance my backend development skills. This powerful Python framework is an exciting area of growth for me, as I aim to develop more scalable and efficient web applications.
